By signing below you are authorizing Offutt Systems, Inc. to debit the above listed credit card for the payment of the above listed product fees. In addition, you authorize Offutt Systems, Inc. to debit annually for those fees listed on an annual basis. Offutt Systems, Inc will continue to debit the charges and/or fees at the regularly scheduled billing cycle selected above. Annual payments are non-refundable. This contract will automatically renew on the annual anniversary date of the first billing date unless Offutt Systems, Inc is notified, in writing, no less than thirty (30) days prior to contract renewal. It is the sole responsibility of the signed customer to assure compliance with all local, state, federal, franchise rules, regulations and/or laws with regard to their user of the Pocket InnoVia product and the data contained therein. Any misuse, either intentional or otherwise, of the Pocket InnoVia product or the data contained therein by the signed customer is done so at his/her own risk. The signed customer agrees to waive all liability of Offutt Systems, Inc, and any of their affiliated partners, from any and all liability resulting from such violations. These terms and conditions are subject to change without prior notice.

Product Information – Pocket InnoVia

Pocket InnoVia™ – Listings in the Palm of Your Hand!

Pocket InnoVia™ is an integrated mobile MLS Application allowing you the incredible freedom of being able to take your entire MLS with you *wherever you go*. From the office, to your home, and everywhere in between, you can now access all of the necessary MLS information you need whenever and wherever you need to without having to sit down at your desktop PC or carry around your laptop computer.

Pocket InnoVia is the only software product for handheld devices that effortlessly synchronizes with the InnoVia™ MLS System.

Pocket InnoVia – Pocket PC

Pocket InnoVia – Pocket PC is a software application designed for use on Microsoft "Pocket PC branded" handheld computers that provides you with access to your entire MLS inventory. Pocket InnoVia not only stores your listing information but Office/Agent Information, Hot Sheet Recap, Listing Photos, Agent Photos, and Property Map images (where available). With nothing more than a few minutes a day you can have everything you need to effortlessly work away from the confines of your office.

Pocket InnoVia – PALM OS

Pocket InnoVia – PALM OS is a software application designed for use on handheld computers running the PALM OS operating system. Pocket InnoVia provides you with access to your entire MLS inventory directly from your handheld computer. Pocket InnoVia not only stores your listing information but Office/Agent Information, and Hot Sheet Recap of what has happened since your last update. With nothing more than a few minutes a day you can have everything you need to effortlessly work away from the confines of your office.

Pocket InnoVia – Recommended Hardware

Pocket PC Devices: Pocket InnoVia for the Pocket PC is designed to run on those handheld computers which utilize the Pocket PC operating system. Examples of such devices are the Dell Axim X3 or X5, Compaq IPAQ, or the HP Jornada. Memory requirements are a minimum of 64MB with 128mb being the recommended requirement for full database and picture support.

PALM OS Devices: Pocket InnoVia is designed to run on those handheld computers which utilize the PALM OS operating system. Examples of such devices are the Palm Vx, VIIx, Palm m500, m505, m125, and Handspring Visor models such as the Deluxe or Prism. We strongly recommend devices that are expandable beyond 8mb and require Palm OS 3.5 or later.

Incredible Dell Axim X5 Discount!

To provide our customers with the all tools they need in order to succeed, Offutt Systems, Inc. has negotiated a great discount for you through Dell Computers on the purchase the Axim X5 Handheld Pocket PC. To find out more visit our website at www.getoffutt.com.
