Authentisign
Legally eSign any Document Online

Authentisign™ has been totally redesigned. It's easier to use and more powerful, too.

AUTHENTISIGN HIGHLIGHTS

NEW "DRAG & DROP" SIGNING BLOCKS
Create Signing blocks in 3 easy steps:
1. Add the signers
2. Add the documents
3. Mark where the signatures or initials should go

ESIGN ACT COMPLIANT AND APPROVED BY THE FHA
You can even add an optional US Postal Service Electronic Postmark (EPM) for extra document security.

AUTOMATICALLY ROUTES DOCUMENTS
The system routes, then gathers the signatures and distributes fully-executed documents when all parties have signed.

NOW MAC COMPATIBLE
Use your PC or Mac.

USE VIRTUALLY ANY TYPE OF FILE
Works with PDFs, Docs, etc.

COSTS LESS THAN COMPETING SYSTEMS
Available as a stand-alone ESIGN service or as a seamlessly integrated feature in our complete suite of services.

New Real Estate Workflow

Works the way signings do in real life. Easily add reviewers in addition to the signers so agents and attorneys can review documents before they are presented to clients for signature.

Layouts Help Speed Future Signings

Place signature blocks once and apply them to documents over and over again.

Add Documents from Multiple Sources

Upload documents from your hard drive, DocBox, Instanet Forms and TransactionDesk.

Electronically Sign Paper Documents, Too

When you fax-in paper documents, we'll convert them to electronic files that are ready for online signing.

Works with Almost Any Online Forms System

Virtually any PDF can be loaded and signed, no matter what forms system you're using. Use documents you already have saved in any document or transaction management system.

Authentisign can be purchased as an individual package or as part of our complete suite of products.
